Network of Providers:

Extended MLTC offers a robust network of community based services from internal clinical staff members and through health care service provider agreements with local agencies and care givers. Both our staff and our carefully selected providers have been enlisted due to experience in MLTC provisions of care and have cultivated successful care giving relationships in a variety of cultures and communities served in our program. All of our providers have successfully satisfied the NY State Department of Health credentialing process.

All Care Management services are provided directly by Extended MLTC RNs, while outlying services can be selected by member choice from our proceeding network of providers. Please refer to your Care Manager with regard to authorization and your Plan of Care.
